AbbVie Externship in Toxicologic Pathology & Laboratory Animal Medicine

Organization/Company: AbbVie, Inc.
Location: North Chicago, IL
Website: www.abbvie.com
Pathology Environment: Industry
Discipline/Field of Study: Toxicologic Pathology & Laboratory Animal Medicine
Length of Externship: 6-week externship for students in the 4th year of the veterinary curriculum
Time of Year: As available
Funding/Stipend: No
Housing Provided: Yes

Description of Externship:
AbbVie offers 6-week long externships to 4th year veterinary students that consist of three weeks of pathology (anatomic and clinical) followed by three weeks of laboratory animal medicine. These externships are designed to give veterinary students an idea of what industry is like as a career choice. Applicants should inquire during their 3rd year of the veterinary curriculum for participation in the following year.
