Clinical Non-human Primates Veterinarian

Req ID #: 213509
Location: site located in Houston, Texas.

The Clinical Veterinarian will be responsible for providing professional veterinary services and assisting with the management of all phases of health care for the animal colony.

RESPONSIBILITIES AND DUTIES:

- Provide clinical care for the animal colony.
- Perform veterinary rounds as scheduled, and provide clinical care and preventive medicine support.
- Perform surgical support and provide anesthesia, surgical and analgesic technical expertise/advice to facilitate protocol development.
- Assist in the development and deliver training for staff. Training may include veterinary diagnostics, techniques and minor surgical procedures.
- Provide animal health care guidance for veterinary services personnel as required.
- Ensure that reports and other materials are prepared and submitted as required.
- May participate in the response to internal/external inspections and quality assurance audits of veterinary or animal welfare type content.
- Provide support for activities of the Institutional Animal Care and Use Committee (IACUC), including protocol review, program review and facility inspections.
- May serve on the IACUC committee.
- Write, review and update veterinary care and/or necropsy SOPs as required.
- Perform literature searches relating to veterinary subject matters.
- Ensure facility is in compliance with all applicable regulations, guidelines and standards that relate to animal care and use (e.g. USDA, FDA, AAALAC).
- Make recommendations and assist in establishing and enhancing veterinary and animal care standards.
- Use controlled substances and be responsible for maintaining appropriate records.
- May assist in management of the activities of assigned section, including providing direction to Veterinary Technicians, scheduling activities, and personnel development of veterinary technical team and husbandry staff.
- Perform special projects and assist with administrative efforts as needed.

MINIMUM QUALIFICATIONS:

- Veterinary degree (D.V.M./V.M.D.)
- Related experience with animal care and surgical techniques.
- An equivalent combination of education and experience may be accepted as a satisfactory substitute for the specific education and experience listed above.
- Licensure to practice veterinary medicine in at least one U.S. state.
- Ability to practice veterinary medicine in the work state highly desirable. USDA accreditation or application submitted within 1 month of hire.
- Proficient in Computers (MS Office Suite).
- Must be organized, can prioritize work and meet deadlines.
- Must have strong communication skills.
- Must be available to be on call on a rotating weekend shift.

**PREFERRED QUALIFICATIONS:**

- Experience in a research/lab animal/GLP environment.

**IMPORTANT:** A resume is required to be considered for this position. If you have not uploaded your resume in your candidate profile, please return to upload field and attach your resume/CV.

**Vaccine Mandate**

Charles River is a U.S. Federal Contractor. As a result, we must follow the Presidential Executive Order to mandate vaccinations, and ensure our employees are fully vaccinated against COVID-19. Our main priority is the wellbeing, health, and safety of our people. We require proof of vaccination from all employees.

Anyone with requests for disability-related and/or religious exemptions should contact Talent Acquisition (crrecruitment_US@crl.com) so that information can be provided about the accommodation process at Charles River.

**About Safety Assessment**

Charles River is committed to helping our partners expedite their preclinical drug development with exceptional safety assessment services, state-of-the-art facilities and expert regulatory guidance. From individual specialty toxicology and IND enabling studies to tailored packages and total laboratory support, our deeply experienced team can design and execute programs that anticipate challenges and avoid roadblocks for a smooth, efficient journey to market. Each year approximately 120 investigational new drug (IND) programs are conducted in our Safety Assessment facilities.

**About Charles River**

Charles River is an early-stage contract research organization (CRO). We have built upon our foundation of laboratory animal medicine and science to develop a diverse portfolio of discovery and safety assessment services, both Good Laboratory Practice (GLP) and non-GLP, to support clients from target identification through preclinical development. Charles River also provides a suite of products and services to support our clients’ clinical laboratory testing needs and manufacturing activities. Utilizing this broad portfolio of products and services enables our clients to create a more flexible drug development model, which reduces their costs, enhances their productivity and effectiveness to increase speed to market.

With over 20,000 employees within 110 facilities in over 20 countries around the globe, we are strategically positioned to coordinate worldwide resources and apply multidisciplinary perspectives in resolving our client’s unique challenges. Our client base includes global pharmaceutical companies, biotechnology companies, government agencies and hospitals and academic institutions around the world.

At Charles River, we are passionate about our role in improving the quality of people’s lives. Our mission, our excellent science and our strong sense of purpose guide us in all that we do, and we approach each day with the knowledge that our work helps to improve the health and well-being of many across the globe. We have proudly supported the development of 86% of the drugs approved by the FDA in 2021.

**Equal Employment Opportunity**

Charles River Laboratories is an Equal Opportunity Employer - all qualified applicants will receive consideration for Houston, TX, US, 77047

For 75 years, Charles River employees have worked together to assist in the discovery, development and safe manufacture of new drug therapies. When you join our family, you will have a significant impact on the health and well-being of people across the globe. Whether your background is in life sciences, finance, IT, sales or another area, your skills will play an important role in the work we perform. In return, we’ll help you build a career that you can feel passionate about.

**IMPORTANT:** In order to be considered for this position, a resume/CV must be uploaded and submitted during the application process. Please make sure work history and education are added correctly.

**Job Summary**
We are seeking a Clinical Veterinarian for our Safety Assessment employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, veteran or disability status.

If you are interested in applying to Charles River Laboratories and need special assistance or an accommodation due to a disability to complete any forms or to otherwise participate in the resume submission process, please contact a member of our Human Resources team by sending an e-mail message to crrecruitment_US@crl.com. This contact is for accommodation requests for individuals with disabilities only and cannot be used to inquire about the status of applications.
