SUMMARY:
The individual in this position serves as the Attending Veterinarian having compliance support and clinical veterinary responsibilities at the Brown University affiliated hospital campuses having research programs involving the care and use of laboratory animals. This individual provides on-call and back up veterinary coverage within the CARE facilities on the main Brown campus. In consultation with the Director, Center for Animal Resources and Education (CARE) and with the assistance of the Clinical Veterinarian, oversees programs of veterinary care; advises affiliated hospital staff members; ensures compliance with the Public Health Service and U.S. Department of Agriculture regulations and guidelines; provides guidance in maintaining AAALAC International accreditation of animal care and use programs and facilities; advises and assists Principal Investigators in the design and performance of animal care and use protocols and serves as a voting member of the Institutional Animal Care and Use Committee (IACUC) as well as the Attending Veterinarian on the Affiliated Hospital IACUCs.

QUALIFICATIONS:

Education and Experience

- Required: degree in veterinary medicine from an AVMA accredited school.
- Must be licensed to practice veterinary medicine in at least one US state and must become licensed in the state of RI within six months from the date of hire.
- Must be able to obtain federal and state controlled substance licenses.
- Must be USDA accredited or able to obtain accreditation within six months from the date of hire.
- Must be able to sign international health certificates for animal exports.
- Must have Formal Residency training and/or six years of experience in laboratory animal medicine.
- Board certification by the American College of Laboratory Animal Medicine (ACLAM) is strongly preferred but board eligible candidates with appropriate work experience may be considered.

Job Competencies

- Must have excellent interpersonal communication, leadership and management skills.
- The person in this position frequently communicates with faculty who have inquired about their research animals. Must be able to exchange accurate information in a professional manner using both verbal and written methods.
- Must be able to work in a fast-paced environment and be able to handle multiple projects with shifting priorities and frequent, short deadlines.
- Must be nimble and attention detailed in order to respond to greatly varying needs in multiple locations while maintaining cohesion of purpose and presentation.
- Requires high level coordination with other leadership to help maintain the integrity of the total Brown University/Affiliated Hospital research effort utilizing animals.
- Must be able to budget time and effort effectively.
- This individual must work effectively with a number of people across the institution to foster and maintain high-quality animal care and use programs and facilities.
- Possesses a willingness and ability to support a diverse and inclusive campus community.

CRIMINAL BACKGROUND AND EDUCATION CHECK REQUIRED

Vaccination Requirements:
In order to maintain 90% or greater universal vaccination rates on campus, all newly hired employees at Brown University must receive the final dose of the COVID-19 vaccine before they begin work, unless they are approved for a medical or religious exemption. All employees must also receive a COVID-19 booster within thirty (30) days of becoming eligible. For more information, please visit the Healthy Brown site.

As an EEO/AA employer, Brown University provides equal opportunity and prohibits discrimination, harassment, and retaliation based upon a person’s race, color, religion, sex, age, national or ethnic origin, disability, veteran status, sexual orientation, gender identity, gender expression, or any other characteristic protected under applicable law, and caste, which is protected by our University policies.

The University maintains an affirmative action program in employment for minorities, women, persons with disabilities, and veterans and requires its employees to take good-faith efforts to comply with the program. The University encourages those with whom it conducts business to meet the commitments of this important program. The President delegates the authority to implement this Policy Statement to the Office of Institutional Equity and Diversity.

About Brown (Please visit our website and get to know us better at: www.brown.edu)

Located in historic Providence, Rhode Island and founded in 1764, Brown University is the seventh-oldest college in the United States. Brown is an independent, coeducational Ivy League institution comprising undergraduate and graduate programs, plus the Alpert Medical School, School of Public Health, School of Engineering, and the School of Professional Studies.

With its talented and motivated student body and accomplished faculty, Brown is a leading research university that maintains a particular commitment to exceptional undergraduate instruction. Brown’s vibrant, diverse campus community consists of about 4,500 staff and faculty, 6,200 undergraduates, 2,000 graduate students, 490 medical school students, more than 5,000 summer, visiting, and online students, and over 700 faculty members. Brown students come from all 50 states and more than 115 countries. Brown is frequently recognized for its global reach, many cultural events, numerous campus groups and activities, active community service programs, highly competitive athletics, and beautiful facilities located in a richly historic urban setting.

Brown offers competitive benefits such as a generous retirement plan and education programs; details are available at: http://www.brown.edu/about/administration/human-resources/
