Thank you for considering Binghamton University in your search.

**About Binghamton University:**

Binghamton University is a premier public R1 research institution in the State University of New York (SUNY) system that unites more than 130 broadly interdisciplinary educational programs with some of the most vibrant research in the nation. Our unique character - shaped by our mission, outstanding academics, facilities, and community life - promotes extraordinary student success, research, and service; Binghamton University is where our students, faculty and staff thrive.

Working at Binghamton University is more than about having a great job - it is about having the opportunity to flourish in an exciting, engaging environment. Our faculty and staff appreciate Binghamton’s collegial and inclusive culture and its commitment to excellence, education, innovation and civic engagement. Our diverse campus community contributes to our success.

Binghamton merges rigorous academics, distinguished faculty, exceptional staff, and ultramodern facilities to engage and challenge its 18,000+ students. The high-achieving Binghamton student body also represents a great diversity of life experiences, from first-generation college-goers to international students. Beyond their talent, these classmates share a desire to shape the future through technology, insight, intellectual exploration, and community service.

We are an affirmative action/equal opportunity employer, and in keeping with this commitment, we welcome all to apply, including veterans and persons with disabilities.

**Job Description:**

**Budget Title:** University Instructional Specialist (SL-5)

**Salary:** $135,000

The Attending Veterinarian (AV) is charged with maintaining a program of appropriate veterinary care, designing and implementing preventative medicine programs, and providing health monitoring, diagnosis, treatment, and post-operative care for multiple species. The AV is responsible for the health and welfare of all animals used in University protocols, the necessity for and components of treatment administered, and the necessity for euthanasia. The AV is charged with managing the daily care needs of the animals, providing necessary veterinary care, monitoring all use of animals by university personnel, and ensuring the highest standards of animal care are always met. The AV helps in providing assurance of compliance with regulatory and accreditation bodies and in fostering strong communications with investigators, the Institutional Animal Care and Use Committee (IACUC), and the animal care staff. The AV serves as a member of the IACUC with duties that include reviewing animal use protocols, assisting with policy improvements, supporting investigators in protocol development, assuring quality animal care, and participating in semiannual program review and inspections.

This position may be eligible for a hybrid work location under the NYS approved remote work location agreement.

**Specific responsibilities include:**
• Delivering the highest level of technical and professional oversight of all animal care and use functions involving laboratory animals in an ethical and safe manner while fostering scientific excellence and highly collaborative research in the animal program.
• Promoting a positive culture of collaboration, compliance, service and integrity.
• Possessing a solution-oriented attitude with an understanding of the impact of decisions.
• Consultation and collaboration with university personnel, principal investigators, and researchers in effective methods of animal care and use.
• Working with the Director of Laboratory Animal Facilities and animal care staff to maintain a preventive medicine program that may include quarantine, disease surveillance, and clinical health.
• Providing guidance to Veterinarians Technicians.
• Providing consultation to investigators regarding anesthesia, analgesia, breeding, and other study-related needs related to protocol development.
• Performing survival surgery, as well as necropsies on rodents.
• Preparation and delivery of training, guidance, and instructional programs to maintain compliance with various animal welfare regulations, as well as ensuring all practices are in accordance with AAALAC, PHS, USDA, and NYDOH standards.
• Serving in the AAALAC reaccreditation process.
• Serving as a member of the IACUC.
• Participating in Post Approval Monitoring, IACUC, USDA, NIH, and AAALAC inspections.
• Conducting pre-review of new, renewals, and modifications of animal use protocols.
• Participation in IACUC semi-annual inspections of animal facilities and assists investigators in complying with various animal care and use requirements.
• Remaining current on advancements in veterinary techniques and surgical procedures, professional trends and regulations, and fulfilling continuing education requirements of licensures.
• Potential service as a member of other institutional compliance committees (Institutional Biosafety, Radiation Safety, Stem Cell Research Oversight committees).

Requirements:

Visa sponsorship is not available for this position

• 2-5 years of related experience in research animal care
• DVM/VMD from an AVMA accredited institution
• Hold a license to practice veterinary medicine in the United States
• Possesses, or will obtain within one year of employment, a license to practice veterinary medicine in New York state
• Eligible for State and Federal registration to handle controlled substances

Preferred:

• Experience in lab animal medicine, preferably within a university setting.
• Evidence of effective teamwork and group communication skills, as these are key elements in this environment.
• ACLAM board eligibility or certification
• Proficient in Microsoft Office core applications, various virtual platforms, with excellent written and oral communication skills

Additional Information:
Offers of employment may be contingent upon successful completion of a pre-employment background check and verification of degree(s) and credentials.
